Global Corridor Growth

Next year's #ACCELERATERegTech2022 will be presented in a 100% virtual format and its theme "Global Growth Corridor" is a nod to the creation of our global RegTech eco-systems in a similar way that cities are designed and developed.

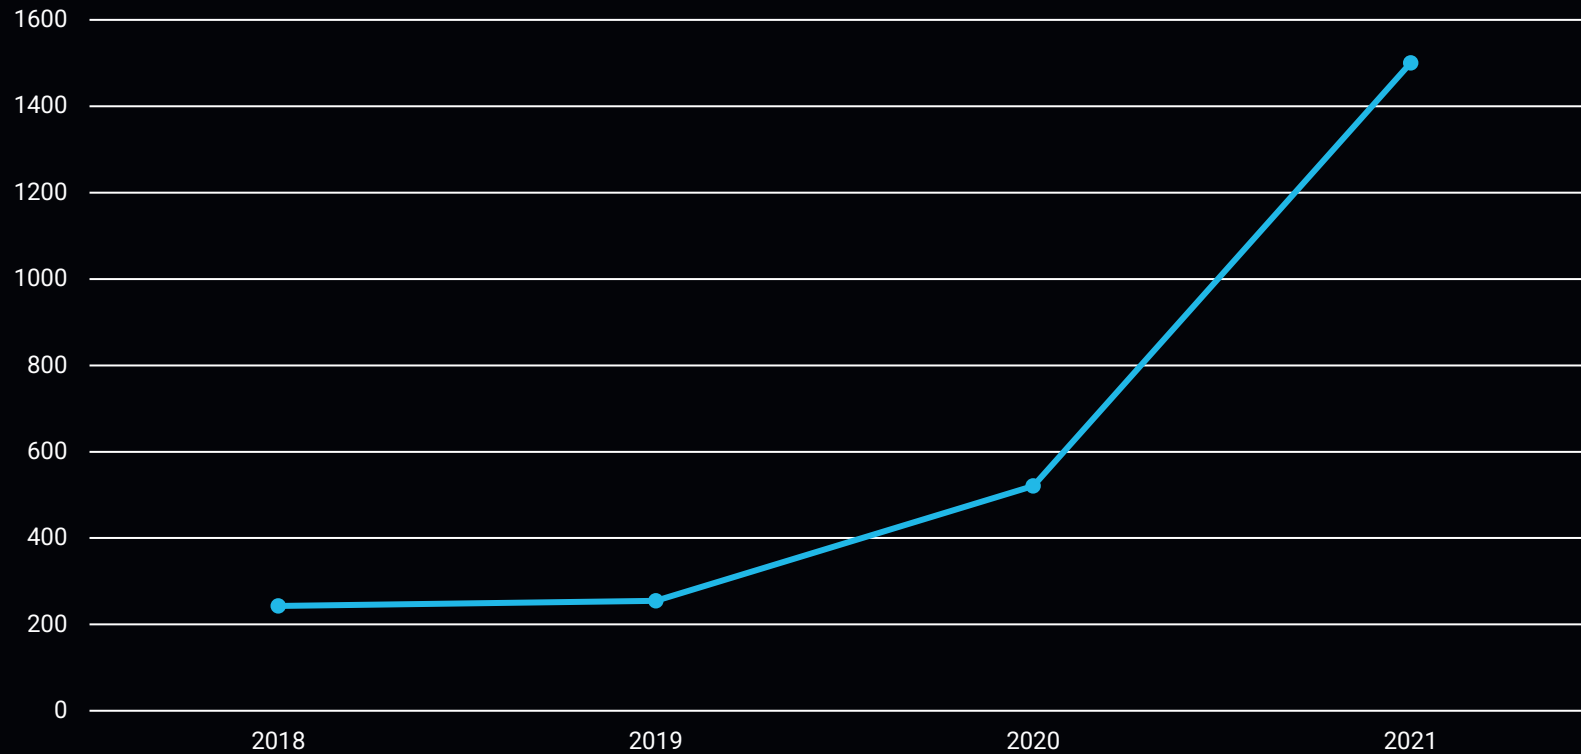

- Delivered virtually for a deeper global engagement and connectivity.
- 3 streams delivered over 3 consecutive days, approximately 2 hours in length.
 - Big Picture
 - The Financial System
 - The New Economy
- The streams are designed to present and provoke ideas, with a thread of environmental, social and governance issues threaded through.
- A members only Change Maker session (featuring industry leaders) in each stream.

Global Corridor Growth cont.

- The 3 day bonanza will be topped off with a PitchFest of new ideas – bringing some of the latest thinking and solutions to the market.
- Based on feedback we will not have a virtual expo space, however we have built in some other brand-enhancing sponsorship opportunities for you to consider.
- The event is 100% complementary to attend, however only members can attend the Change Maker Round Table sessions.
- Registrations will open towards the end of November and be launched formally at our 2021 RegTech Awards program. Speakers will be announced at that time.

Growth 2018, 2019, 2020, 2021

#ACCELERATERegTech registrations

2018, 2019 face to face events, 2020 cancelled a week before, 2021 virtual

The RegTech Association's growth 2019 - 2021

From 2019 to 2020:

- Explosive growth of 400% in attendance levels at our programs (2019-1000, 2020-5000).
- Growth of 50% in number of memberships.
- Driven by our move to go global.

Projections for 2021:

13

- Projecting 20%+ growth in attendance at programs from calendar year 2021.
- More than 50 countries have attended as at Sept 2021.
- Driven by the general positive trends in RegTech adoption around the world.
- RTA Research indicates appetite, deployments, budgets are increasing in RegTech.
